Projects

Tourisum Website

Collaboratively developed a travel platform to help tourists explore France seamlessly. Key features include top attractions, travel guides, and expert tips to enhance the user experience. Built using HTML, CSS, and JavaScript.

Personal Portfolio

This is an individual portfolio project developed using React. It showcases my academic background, personal projects, internships, contact information, social media links, and coding profiles. The goal of this project is to present my professional journey in a clean and organized format.

Craft Cart

Collaboratively developed a responsive e-commerce web application for selling traditional items like woodcraft, tribal arts, and handmade products, featuring dynamic product listings, cart management, and order processing. The project ensured seamless front-end and back-end integration. Built using JavaScript, Node.js, MongoDB, HTML, and CSS.

Internships

Full Stack development Intern - Technical Hub (june 2024 - june 2025)
- Completed a full stack development internship at Technical Hub Pvt. Ltd., where I built projects using HTML, CSS, JavaScript, and React.js. Gained practical experience in collaborative coding, version control, and understanding end-to-end development workflows. Also worked with Node.js and MongoDB to develop and manage backend systems for full-stack applications.
